10×FWD INNOVATION FEST

About FWD

At FWD, we're a different kind of insurance company.

We are led by customers and driven by technology. This is why we look outwards at what people need, rather than what industry has always offered. We offer a new kind of insurance that is easier to buy, claim, and understand—helping us in changing the way people feel about insurance.

Celebrate living

Our brand promise and tagline help us shift our role as an insurer, to help people feel confident and focus on living lives without hesitation.

It's at the core of our brand culture and our hope for every customer we inspire. Because if we can take away a little of the stress or the worry, then we've given our customers the one priceless thing: the freedom to celebrate living.
