The plan's four distinct features are designed to reward you at critical moments in your investment journey.

Start-up Bonus

We'll invest a Start-up Bonus on your first policy year, up to 30% of your basic annual premium. It will be invested in its own account value in line with your frequency of premium payment. Your Start-up Bonus will grow alongside your fund and will be added to your account value in the 5th and 10th year. Think of it as a welcome gift that grows.

Your benefit amount determines the percentage of the Start-up Bonus:

	Benefit Amount Range	Total Start-up Bonus (% of Basic Annual Premium)
Band 3	BA > Php 2 million	30%
Band 2	Php 1million < BA <= Php 2 million	25%
Band 1	BA <= Php 1million	20%

You can track the growth of the Start-up Bonus via Omne by FWD. It will be transferred to your policy account value according to this schedule:

	% of Start-up Bonus invested	
	5-pay	10-pay
End of Year 5	50%	25%
End of Year 10	50%	75%

Unlock your bonuses by:

- Ensuring your premium payments are complete
- Ensuring your total withdrawals are less than the top-ups made

Premium Extension Bonus

After completing your premium payment period, you have the option to continue investing in your account. We will match every additional premium payment (in line with your frequency of premium payment, excluding top-ups) with a 2% Premium Extension Bonus. Applicable with:

- 5-year pay: from 6th to 10th policy year
- 10-year pay: from 11th to 20th policy year

No additional premium payment charges!

- Your full premium amount **with bonus** will be credited to your account value
- The bonus ends when you end your additional premium payments
- Premiums under this feature will have no premium charge deducted, no additional benefit amount contribution, and will not require further underwriting

Unlock your bonuses by:

- Ensuring your premium payments are complete
- Ensuring your total withdrawals are less than the top-ups made

Four Distinct Features

Investment Protector Bonus

The stock market naturally goes through cycles of growth that involve peaks and valleys so it helps to take a long view. Investment Protector Bonus mitigates some of that risk by doubling your Loyalty Bonus if in the last business year preceding the bonus payout, the Philippine Stock Exchange Composite Index (PSEi) price is lower than its price as of the first business day five years before the payout date.

Unlock your bonuses by:

- Ensuring your premium payments are complete
- Ensuring your total withdrawals are less than the top-ups made
- Ensuring 50% of fund allocation is with equity funds as of Dec 31 of preceding year

Guaranteed Milestone Increase

When your goals start manifesting, it's also time to upgrade your coverage. So we'll also give you a hassle-free, pre-approved benefit amount increase when you hit a major milestone, and you get to choose the one time you want to activate it:

- Wedding
- New baby / adoption
- New real estate property
- University graduation
- Policy's 10th year anniversary
- Retirement

No additional underwriting or complicated approvals!

- Milestones are applicable only for the insured
- All premium payments must be complete
- Redeem up to 90 days from milestone event, as long as insured is below 65 years old
